

✓ DVP-EH3 SERIES PLC

- Excellent Motion Control
 - High-speed pulse output: 4 sets of 200kHz pulse output (DVP40/48/64/80EH00T3)
 - Supports max. 4 hardware 200kHz high-speed counters
 - Increases many motion control instructions to meet the applications that require high-speed and high-precision positioning control such as labeling machines, packaging machines and printing machines
 - Offers linear / arc interpolation motion control
 - Provides up to 16 external interrupt pointers
- Complete Program Protection
 - Auto backup function to prevent losing programs and data even when the battery runs out
 - Second copy function provides a backup for extra insurance in the event that one set of programs and data are damaged
 - Up to 4-level password protection protects your source programs and intellectual property
- Outstanding Operation Performance
 - CPU + ASIC dual processors support floating point operations. The max. execution speed of basic instructions is able to reach 0.24μs.
- Flexible Function Extension Modules & Cards
 - The multiple selections of extension modules and function cards provide analog I/O, temperature measurement, additional single-axis motion control, high-speed counting, 3rd serial communication port and Ethernet communication card are available.
- PLC-Link
 - C-Link allows the user to link up a max. 32 units to the network without having to install extra communication extension modules
- Brand-New High-Speed Extension Modules
 - The brand-new extension modules greatly shorten the data transmission time among the PLC and its extension modules as well as enhance the efficiency of the PLC program
